

Mozambique National BCH Workshop Program

- Objective:

- To train the country's key stakeholders on how the information available on the BCH can best be utilized to support the implementation of the national Biosafety framework.
- To introduce the BCH training materials and demonstrate how the BCH know-how can be utilized by national educational institutions and other key stakeholders to achieve BCH capacity-building sustainability beyond the project's duration.

Topics to be covered	
	Registration
	Opening Ceremony
1.	Introduction to Workshop and the Project Virtual Learning Environment
	Pre-workshop evaluation form
