

### CASE STUDY (CSFI12):

**A Principal Customs officer looks for relevant Cartagena Protocol on Biosafety (CPB) articles, COPMOP decisions, and capacity-building opportunities.**

#### Objective:

Use the BCH Central Portal to find the Cartagena Protocol on Biosafety (CPB) articles, the COP-MOP<sup>1</sup> decisions, and the capacity-building activities that could assist the customs officers in performing their tasks.

#### Scenario:

You are a Principal customs officer in the Republic of Korea responsible for organizing customs activities related to transboundary movements of LMOs. You need to know what CPB articles and COP/MOP decisions are relevant to this task. You also want to find out what activities on BCH can help you in your agency capacity building for that task.
